

# No.1

## Knee Rehabilitation Device

Using the STAK, patients gained 30° increase in knee range of movement in 8 weeks

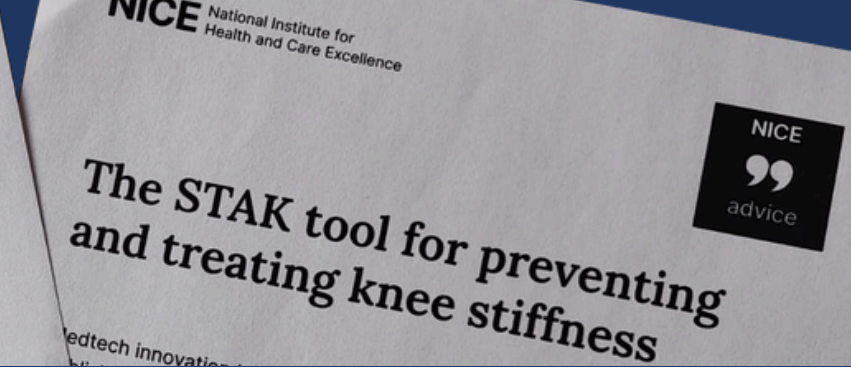

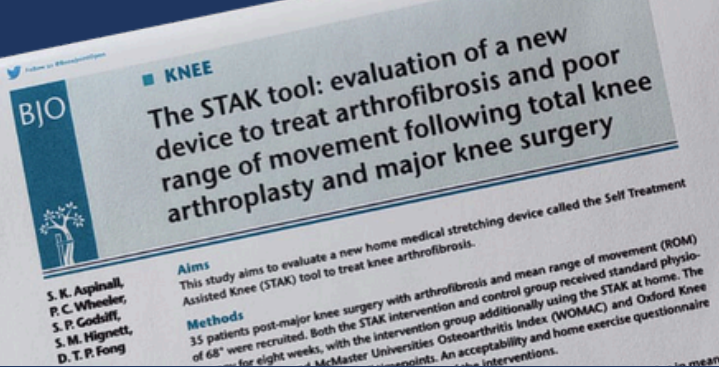

Compared to only 8° in patients receiving standard physiotherapy alone

In only 8 weeks!

## A New Cure For Knee Stiffness!

STAK enables you to carry out effective, daily stretching at home. As you breakdown scar tissue, new tissue will form restoring your range of motion and mobility! Reducing pain, stiffness and improving movement, strength and function.

**98%**  
**Extremely Satisfied**

You need  
 110°-120° to  
 comfortably  
 complete  
 most daily  
 activities

- ✓ The STAK is light and easy to use
